Cph Lighting is a Danish lighting company based in Hjerting, a small seaside town on the west coast of Denmark.

Our lighting collection consists of classic and modern designs by Guglielmo Berchicci, Morten Flensted, and Tom Stepp. Three individual designers who share our passion for high quality lighting.

> Our products are designed with the greatest attention to functionality, high quality, and low energy consumption.

> This is the reason why our products are just as suitable for private homes as well as for the contract market.

MANUFACTURED IN DENMARK

The Cph Lighting collection is manufactured in Denmark. This gives us many advantages: Hands on control with product quality, fair labor conditions are secured, and transportation of components and the finished products is reduced, for the benefit of our environment.

Last but not least, it offers us flexibility and the ability to offer our clients customized solutions on many of our products, even in limited quantities. Please contact us for more information.

www.cphlighting.dk

OUR DESIGNERS

Born in Milan - Italy, lives and works in Mallorca - Spain.

Guglielmo Berchicci has a bachelor degree in architecture from the Polytechnic University of Milan, and is a renowned designer in Italy and abroad.

His work of architecture and design stems from his fascination of the appearing simplicity and complexities of nature and life.

Gugliemo Berchicci works with product design, interior design, and architecture for Italian and international clients. Designs for Cph Lighting: The Eggy Pop collection.

Born in Denmark, lives and works in the city of Aarhus. Morten Flensted was trained as an electrician and electronic engineer before graduating as an industrial designer from Kolding School of Design.

Tom Stepp was trained as a carpenter, building technician and construction technician before graduating as an architect from the Royal Danish Academy of Fine Arts in Copenhagen.

A background which has given him a very pragmatic approach to design.

Tom Stepp works with product design, interior design, and architecture for a number of Danish and international clients.

Peak pendant black oak

Guglielmo Berchicci

Morten Flensted

He has a keen eye for the detail.

Morten Flensted works with industrial- and graphic design for a wide range of Danish clients.

Designs for Cph Lighting: Peak.

Tom Stepp

Born in Denmark, lives and works in the city of Helsingoer.

Designs for Cph Lighting: Oblique, Grid, Basic, Perfo.

BASIC

Design: Tom Stepp 1980

The Basic pendant series is timeless design with a high light output, emitting a pleasant direct light without glare.

Basic is open at the top, whereby light illuminates the rings on the top, and thus adds an extra decorative element to the design.

Basic is the perfect choice for dining tables, counters etc., in both private and public applications.

Materials: Aluminium, steel, textile cord Dimensions (cm): Ø26 x h14.5 / Ø40 x h17 / Ø50 x h21 Lightsource: 230V, E27 - max 100W Colours: Black, White

> Technical specifications p. 46 Colours p. 63

EGGY PIN FLOOR

Design: Guglielmo Berchicci 2004

Eggy Pin Floor is an elegant floor lamp available with optional on/off switch or dimmer switch.

Eggy Pin Floor is made of PE, a strong, UV-resistant and recyclable material, that emits a soft and pleasant light without glare.

Eggy Pin Floor is part of the Eggy Pop collection, whose organic and inviting design is based on a simple and universal shape - the egg.

Eggy Pin Floor is the perfect choice for almost any interior design style, in both private and public settings.

Materials: PE and steel. Plastic cord

Dimensions (cm): ø55 x h180

Lightsource: 230V, E27 - max 75W

Optional on/off or dimmer switch

Colors: Opal White, White lacquered

EGGY PIN TABLE

Design: Guglielmo Berchicci 2004

Eggy Pin Table is an elegant table lamp available with optional on/off switch or dimmer switch.

Eggy Pin Table is made of PE, a strong, UV-resistant and recyclable material, that emits a soft and pleasant light without glare.

Eggy Pin Table is part of the Eggy Pop collection, whose organic and inviting design is based on a simple and universal shape - the egg.

Eggy Pin Table is the perfect choice for almost any interior design style, in both private and public settings.

> Materials: PE, steel, and plastic cord Dimensions (cm): ø32 x h40 Light source: 230V, E27 - max 40W Optional on/off or dimmer switch

> Colours: Opal White, White lacquered

EGGY POP IN

Design: Guglielmo Berchicci 2004

Eggy Pop In is an elegant floor or table lamp, available in three sizes.

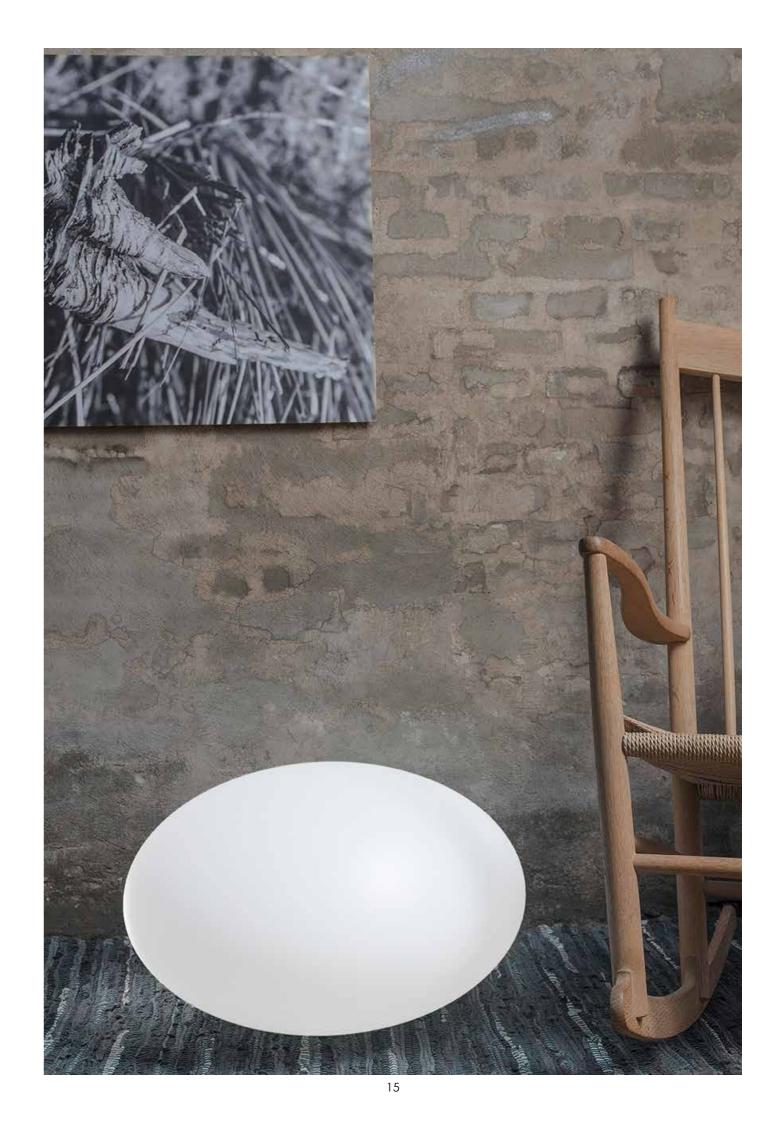

Eggy Pop In is made of PE, a strong, UV-resistant and recyclable material that emits a soft and pleasant light without glare.

Eggy Pop In is part of the Eggy Pop collection, whose organic and inviting design is based on a simple and universal shape - the egg.

Use Eggy Pop In alone or in clusters with a mix of different sizes to create a decorative effect.

Eggy Pop In is the perfect choice for almost any interior design style, and in both private and public settings.

Materials: PE, plastic cord Dimensions (cm): S: ø32 x h22, M: ø55 x h35, L: ø70 x h40 Light source: 230V, E27. S: max 40W / M+L: max 75W Optional on/off or dimmer switch Colours: Opal White

EGGY POP PENDANT

Design: Guglielmo Berchicci 2004

The Eggy Pop Pendant is a suspension lamp, availale in three sizes, and mounted in a steel wire and a curved cable to create an elegant and floating look.

Eggy Pop Pendant is made of PE - a strong, UV-resistant and recyclable material, and emits a soft and pleasant light without glare.

> Eggy Pop Pendant is part of the Eggy Pop collection, whose organic and inviting design is based on a simple and universal shape - the egg.

Use Eggy Pop Pendants alone or in clusters with a mix of different sizes to create a decorative effect.

Eggy Pop Pendant is the perfect choice for almost any interior design style, and in both private and public settings.

> Materials: PE, plastic cord, and steel wire Dimensions (cm): S: ø32 x h22, M: ø55 x h35, L: ø70 x h40 Light source: 230V, E27. S: max 40W/ M+L: max 75W Colours: Opal White

EGGY POP UP

Design: Guglielmo Berchicci 2004

Eggy Pop Up is an elegant fixture for direct installation on wall or ceiling, available in three sizes. It "grows" out of the wall or ceiling like a glowing sculpture.

> Eggy Pop Up is made of PE - a strong, UV-resistant and recyclable material, and emits a soft and pleasant light without glare.

> > Eggy Pop Up is part of the Eggy Pop collection, whose organic and inviting design is based on a simple and universal shape - the egg.

Use Eggy Pop Up alone or in clusters with a mix of different sizes to create a decorative effect.

Eggy Pop Up is the perfect choice for almost any interior design style, and in both private and public settings.

Materials: PE

Dimensions (cm): S: ø32 x h22, M: ø55 x h35, L: ø70 x h40

Light source: 230V, E27. S: max 40W/ M+L: max 75W

Colours: Opal White

GRID

Design: Tom Stepp 2011

Grid is a metal pendant avaliable in seven elegant colors.

Grid combines modern design with referenes to the classic Scandinavian design tradition, and is a refined interpretation of the traditional industrial lamp used at metal latches.

The metal grid adds a twist to the design and prevents nosy fingers from touching the bulb.

Grid emits a pleasant, direct light without glare, making it the perfect choice above dining tables, counters etc., in private as well as public applications.

Materials: Spun aluminium, steel, and textile cord

Dimensions (cm): ø17.5 x H23 cm

Light source: 230V, E27 - max 40W

Colours: Bright (White), Mystery (Black), Moss (Green), Beach (Beige), North (Blue), Sunrise (Yellow), South (Pink)

> Technical specifications p. 51 Colours p. 63

OBLIQUE FLOOR

Design: Tom Stepp 1979

Oblique is a timeless and elegant lighting collection with exceptional details, finishing and functionality.

The asymmetrical design of the lamp shade ensures a glare-free light.

The on/off switch, elegantly positioned on the tilt- and 360°-turnable shade, makes Oblique flexible and easy to adjust and operate.

Oblique is the perfect reading light, suitable for both private and public applications.

Materials: Spun aluminium, steel, and plastic cord

Dimensions (cm): h132

Light source: 230V, E27 - max 60W

Colours: Shade and base: White (glossy, matte), Black (glossy, matte), Flint Grey (matte), Olive Green (matte), Petrol Blue (matte), Tile Red (matte) Stem: Chrome or Brushed Brass

Technical specifications p. 52-53 Colours p. 63

Oblique collection.

OBLIQUE TABLE

Design: Tom Stepp 1979

Oblique is a timeless and elegant lighting collection with exceptional details, finishing and functionality.

The asymmetrical design of the lamp shade ensures a glare-free light.

The on/off switch, elegantly positioned on the tilt- and 360°-turnable shade, makes Oblique flexible and easy to adjust and operate.

Oblique is the perfect reading light.

Oblique is suitable for both private and public applications.

Materials: Spun aluminium, steel or brass, plastic cord

Dimensions (cm): h58

Lightsource: 230V, E27 - max 60W

Colours: Shade and base: White (glossy, matte), Black (glossy, matte), Flint Grey (matte), Olive Green (matte), Petrol Blue (matte), Tile Red (matte) Stem: Chrome or Brushed Brass

Technical specifications p. 54-55 Colours p. 63

OBLIQUE WALL

Design: Tom Stepp 1979

Design - Tom Stepp 1979

Oblique is a timeless and elegant lighting collection with exceptional details, finishing and functionality.

The asymmetrical design of the lamp shade ensures a glare free light which makes Oblique the ideal reading lamp.

The on/off switch, elegantly positioned on the tilt- and 3600 -turnable shade, makes Oblique flexible and easy to adjust.

Oblique is suitable for both private and public applications.

Materials: Spun aluminium, steel or brass, plastic cord

Dimensions (cm): h23

Light source: 230V, E27 - max 60W

Colours: Shade and wall-base: White (glossy, matte), Black (glossy, matte), Flint Grey (matte), Olive Green (matte), Petrol Blue (matte), Tile Red (matte) Joint: Chrome or Brushed Brass

Technical specifications p. 56-57 Colours p. 63

PEAK

Design: Morten Flensted 2015

Peak is an elegant and exclusive pendant in genuine materals: Turned solid oak in three finishes, brass cord grip, and textile covered silicone cord.

The softness of the wood stands in contrast to the angled design. When the two are brought together, they create an exciting and elegant whole.

In order to complete the exclusive experience, Peak is delivered including a dimmable LED bulb from one of the world's most innovative LED suppliers, SORAA. This bulb offers exceptional light, thanks to its unique color rendering and 60 degree beam angle.

Peak is perfect above e.g. counters and dining tables, alone or in cluster, in private as well as public settings.

Materials: Turned solid wood, brass cord grip, textile covered silicone cord

Dimensions (cm): h12 x ø15.5

Light source: 230V, GU10 - max 7.5W LED (Delivered with 7.5W LED bulb from SORAA)

Colors: Natural Oak, Black Oak, Smoked Oak

Technical specifications p. 58 Colours p. 63

EGGY POP OUT

Design: Guglielmo Berchicci 2004

Eggy Pop Out is an elegant outdoor lamp, available in three sizes and with three optional cable lengths.

Eggy Pop Out is made of PE,- a strong, UV-resistant and recyclable material, and emits a soft and pleasant light without glare.

> Eggy Pop Out is part of the Eggy Pop collection, whose organic and inviting design is based on a simple and universal shape - the egg.

Use Eggy Pop Out alone or in clusters with a mix of different sizes to create a decorative effect.

Eggy Pop Out is the perfect choice for private and public gardens, terrasses, balconies etc..

Move it around in different locations, or fix it to the surface with the Eggy Pop fixation bracket.

Materials: PE and black outdoor cable

Dimensions (cm): S: ø32 x h22, M: ø55 x h35, L: ø70 x h40

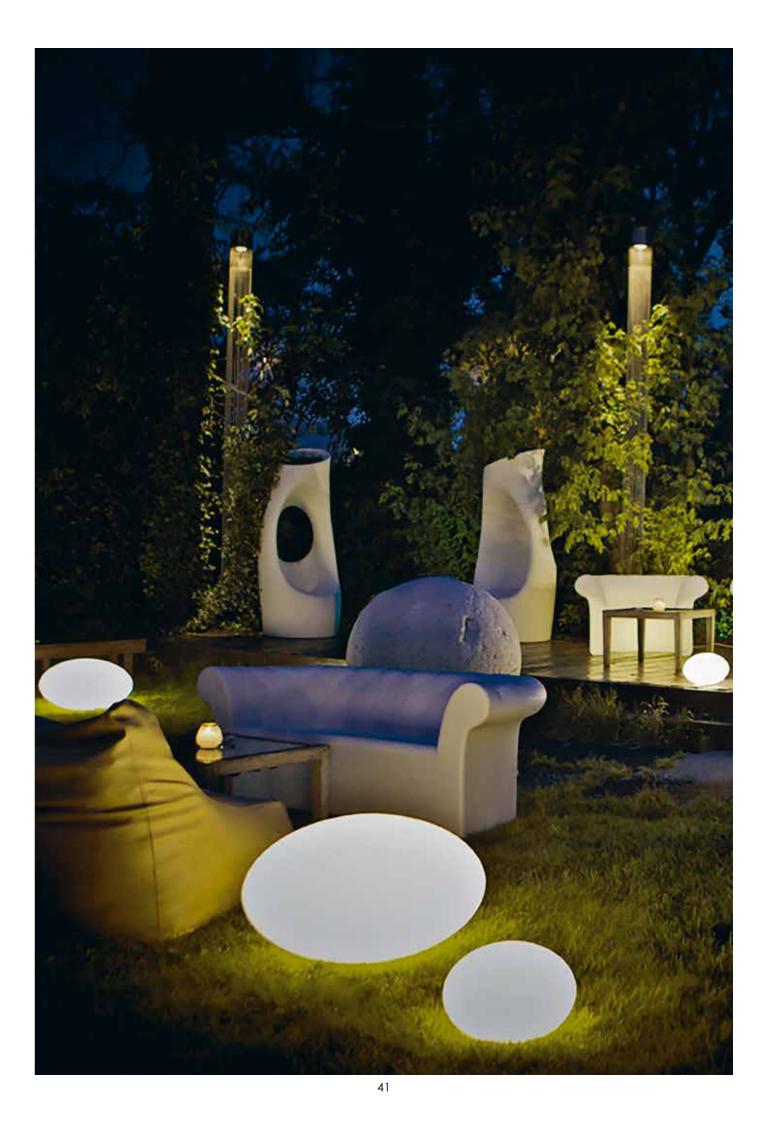

Lightsource: 230V, E27. S: max 40W / M+L: max 75W

Cable length (options): 3 - 5 - 8 m

Colours: Opal White.

Accessory: Fixation bracket (PE) for fixation on concrete, bricks or wooden surfaces

Technical specifications p. 59 Colours p. 63

ARCUS

Design: Cph Lighting 2000

Arcus is a robust outdoor wall and ceiling fixture made of hot-dipped galvanised steel.

Arcus is available with band and clear diffuser or without band and opal diffuser.

Arcus is suitable for private and public installations which require a tamper-proof fixture to withstand harsh climates.

Materials: Hotdipped galvanised steel, polycarbonate

Dimensions (cm): ø27.4 x d13.5 or d17.5

Light source: 230V, E27 - max 60W or 18W TC-D

Colours: Steel

PERFO

Design: Tom Stepp 2000

Perfo is a timeless wall fixture for outdoor use made of hot-dipped galvanised steel.

An elegant effect is created when the light penetrates through the perforated front cover.

Perfo is suitable for private and public outdoor areas that require an elegant and yet robust fixture to withstand harsh climates.

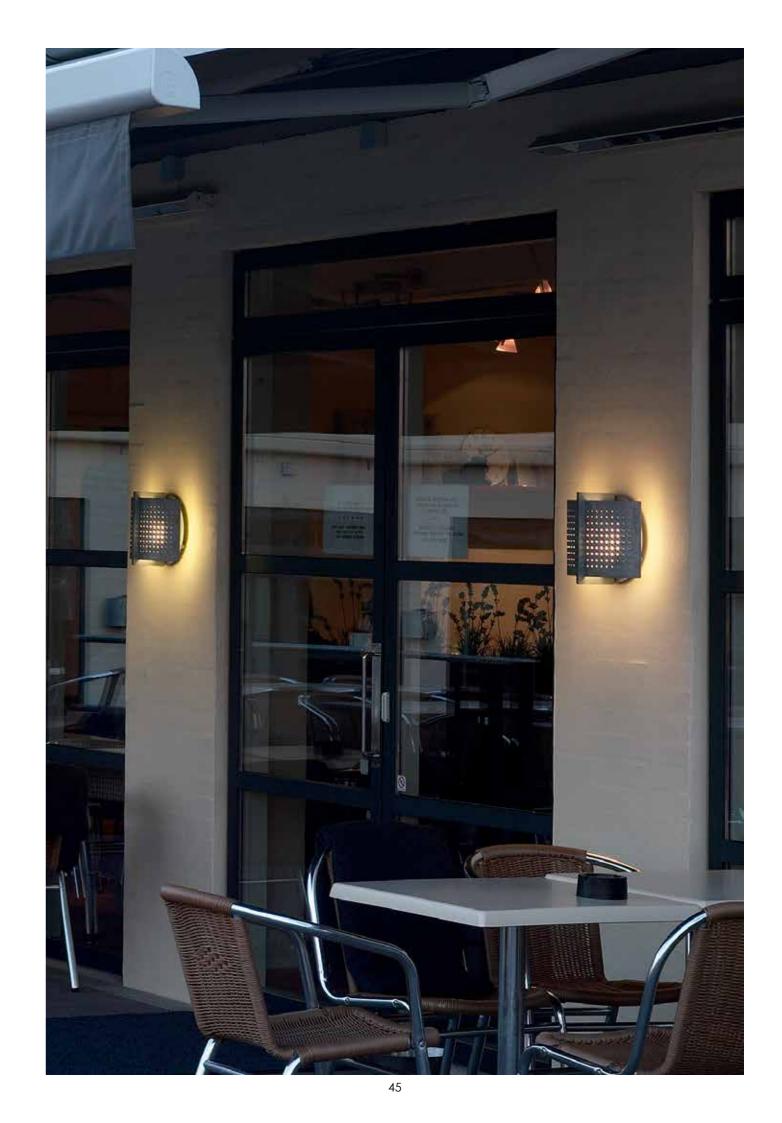

Materials: Hotdipped galvanised steel, polycarbonate

Dimensions (cm): w24 x h32 x d14.5

Light source: 18W TC-TEL

Colours: Steel
